

Brianna was a bright 16-year-old, but school was getting expensive.

"Cute shoes... Concert tickets... How does everyone afford this?!"

Every online application seemed impossible. They all wanted experience she didn't have.

Mom: "You know, I heard about a new app..."

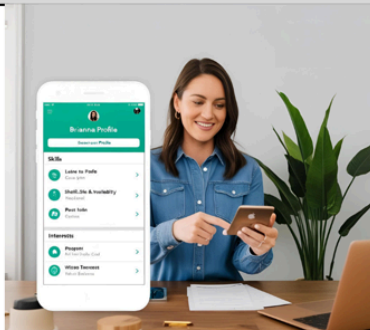

Brianna: \*Sigh\* "Another one?"

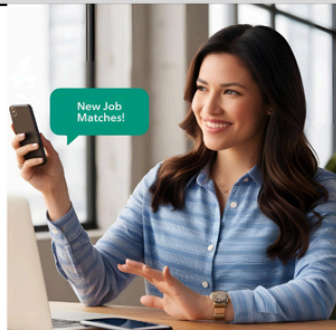

"This one's designed for people just starting out. It's called 'Head Start!'"

Brianna was skeptical, but Head Start was different...

It asked about \*her\* skills, not just her past jobs.

"Woah it actually works."

Before she knew it, Brianna had a job, and her own income!

"I did it! I can't believe it was so easy!"

Now, Brianna was no longer missing out. She was making memories and building her future.

And that first job? It wasn't just a paycheck. It was the first step on a path that led to college, a great career, and a future she built for herself.
